<i>Preface</i>	xv
<i>Introduction</i>	xvii
<b>Chapter 1: Approach to Social Science Research</b>	1
Introduction	1
1. Difference between Science and Common Sense	2
1.1. Use of Conceptual Schemes	2
1.2. Empirical Test	2
1.3. Notion of Control	2
1.4. Relation of Phenomena	3
1.5. Explanation of Observed Phenomena	3
2. Characteristic of Scientific Research	3
3. Aims of Social Science Research	7
<b>Chapter 2: Conventional/Traditional Research and Participatory Action Research: Logic and Structure</b>	11
Introduction	11
1. Definition of Research	11
2. Method	13
3. Difference between Method and Methodology	13
4. What is Logic?	14
4.1. Deductive Reasoning: Conclusion Guaranteed	14
4.2. Inductive Reasoning: Conclusion Merely likely/Possibility	15

4.3. Adductive Reasoning	15
5. Logical Analysis: Its Elements	15
5.1. Term	16
5.2. Proposition	16
5.3. Argument	16
6. Structure	17
7. Conventional or Traditional Method	17
7.1. Conventional/Traditional Research as Pure Research	18
7.2. Conventional/Traditional Research as Experimental or Quantitative Research	18
7.3. Conventional/Traditional Research as Subjectivity	19
7.4. Strengths and Weaknesses of Traditional Research	20
8. Participatory Action Research	21
8.1. Role of Researcher in Participatory Action Research	22
8.2. Issues in Participatory Action Research	22
9. Difference between Conventional/Traditional and Participatory Action Research	23
<b>Chapter 3: Quantitative Method and Qualitative Method in Theological Research</b>	27
Introduction	27
1. Quantitative Method	27
1.1. Quantitative Method of Data Collection	29
1.2. Strategies and Technique of Managing Quantitative Data	30
1.3. Levels of Measurement	30
1.4. Advantages and Disadvantages of Quantitative Method	30
2. Qualitative Method	31
2.1. Data Collection Procedure in Qualitative Method	32

2.2. Three Kinds of Qualitative Data	33
2.3. Strategies and Techniques for Managing Qualitative Data	33
2.4. Design Strategies for Qualitative Inquiry	34
2.5. Data Collection and Fieldwork Strategies	35
2.6. Strategies of Analysis	36
2.7. Advantages and Disadvantages of Qualitative Method	38
2.8. Difference between Qualitative and Quantitative Analysis Method	39
2.9. Combining Quantitative and Qualitative Methods: Mixed Method	39
<b>Chapter 4: Steps in Research Process</b>	43
Introduction	43
1. Steps in the Research Process	43
1.1. Selection of the Subject Area	43
1.2. Identification of Research Problem	44
1.3. Extensive Literature Survey	44
1.4. Formulation of Hypothesis	44
1.5. Research Design	45
1.6. Sample Design	45
1.7. Data Collection	47
1.8. Execution of the Research Project	47
1.9. Analysis of Data	47
1.10. Testing of Hypothesis	48
1.11. Generalization and Interpretation	48
1.12. Reporting the Research	49
<b>Chapter 5: Types of Research and Research Design</b>	51
Introduction	51
1. Definitions	51
2. Functions/Goals of Research Design	53
3. The Purpose of Research Design	54
4. Factors of Research Design	55

5. Requirements for Good Research Design	56
6. Advantages of Research Design	56
7. Types of Research and Research Design	57
7.1. Exploratory Research Design	57
7.2. Descriptive Research Design	58
7.3. Experimental Research Design	59
7.4. Field Research Design	60
7.5. Explanatory or Causal Research Design	61
7.6. Survey Method Research Design	61
7.7. Evaluation Research Design	63
<b>Chapter 6: Selection and Formulation of Research Problem</b>	65
Introduction	65
1. Selection of Research Topic	66
2. Factors that Affect the Selection of a Research Topic	67
2.1. State of Scientific Discipline	67
2.2. Social Problem	67
2.3. Personal Values of the Researcher	68
2.4. Social Premiums	68
2.5. Practical Consideration	69
3. Formulation of Research Topic	69
3.1. Originating the Question	69
3.2. Rational of Question	70
3.3. Specifying Question	70
4. Conditions and Methods of Problem/Topic Formulation	71
5. Steps in Formulation of Research Problem/Topic	72
<b>Chapter 7: Concept, Theory, Hypothesis and Variable</b>	75
Introduction	75
1. Concept	75
2. Conceptualization	76
2.1. Concept as Abstraction	77
2.2. Concepts and Communication	78

2.3. Problems in Definition and Communication	79
2.4. Reconceptualization	80
<b>3. Construct</b>	81
<b>4. Theory and Fact</b>	81
4.1. The Role of Theory	82
4.2. The Role of Fact	83
<b>5. Hypothesis/Hypotheses</b>	83
5.1. Problems in Formulating Hypothesis	84
5.2. Types of Hypotheses	84
5.3. How to Generate Hypothesis	85
5.4. Characteristics of Hypotheses: Some Criteria for Judging Hypotheses	86
<b>6. Variable</b>	87
6.1. Independent Variables (IV) and Dependent Variables (DV)	88
6.2. Experimental and Measured Variables	89
6.3. Measurement of Variables	90
6.4. Univariate, Bivariate and Multivariate	91
<b>Chapter 8: Data Collection Methods-1</b>	95
Introduction	95
1. Types of Data Collection Method	95
2. Methods of Data Collection	96
2.1. Observation Method	96
2.2. Participant Observation	97
2.3. Problems in Participant Observation	97
2.4. Non-participant Observation	98
3. Questionnaire Method	100
3.1. Some Characteristics of Good Questionnaire	101
<b>Chapter 9: Data Collection Methods-2</b>	103
Introduction	103
1. Interview Method	103
2. Types of Interview Method	104
2.1. Structured Interview	104

2.2. Unstructured Interview	104
2.3. Semi-structured Interview	105
2.4. Feminist Perspective on Interview Method	105
2.5. Process of Interview	106
2.6. Practical Aspects of Interview	106
2.7. Managing the Interview	107
3. Focus Group	107
3.1. Focus on the Research Purpose	108
3.2. Selection of a Skilled Moderator	108
4. Documentary Method	109
5. Oral Tradition/History	109
6. Artefacts	110
7. Written Documents	110
8. Audio-Video-Digital	111
<b>Chapter 10: Case Study and Content Analysis</b>	113
Introduction	113
1. Case Study: Meaning and Definition of Case Study	113
1.1. Purpose of Case Study Method	115
1.2. Types of Case Study Method	116
1.3. Importance of Case Study Method	118
1.4. Distinctive Features of Case Study	119
1.5. Specific Steps in Case Study Approach	119
1.6. Planning the Case Study	120
1.7. Advantages and Disadvantages of Case Study	121
2. Content Analysis: Meaning and Definition	123
2.1. A Brief Background of Content Analysis	124
Method	
2.2. Objectives of Content Analysis Method	124
2.3. Purpose of Content Analysis	127
2.4. Use of Content Analysis	128
2.5. Types of Content Analysis	131
2.6. Diversified Types of Content Analysis	135
2.7. Process of Content Analysis	136

2.8. Importance of Content Analysis Method	138
2.9. Limitations of Content Analysis Method	139
2.10. Advantages and Disadvantages of Content Analysis	139
<b>Chapter 11: Analysis of Case Materials and Documents</b>	143
Introduction	143
1. Analysis of Case Materials	143
1.1. Personal Documents	144
2. Documents Relating to Institutions	144
2.1. School as a Source of Community-Based Studies	144
2.2. Schools for Education Research	145
3. Community	145
3.1. Urban Community	146
3.2. Rural Community	146
3.3. Compare and Contrast of Urban and Rural Communities in Research	147
3.4. Objectives in Rural Development	147
4. Organizations	148
4.1. Non-Government Organizations (NGOs)	148
4.2. Research on Non-NGOs	148
5. Political Parties	148
5.1. Analysis of Political Party Document	149
<b>Chapter 12: Tabulation, Analysis and Interpretation</b>	151
Introduction	151
1. Tabulation	151
2. Charts	152
2.1. Pie Chart	152
2.2. Stacked Bar Chart	153
3. Diagram	154
4. Figure	155
5. Index and Scale	156
5.1. Index	156
5.2. Scale	156

6. Analysis and Interpretation of Data	157
6.1. Steps in Analysis	157
7. Choice of Population	158
8. Sampling Design	158
9. Interpretation of Data	159
9.1. Codification and Processing of Data	160
<b>Chapter 13: Statistical Package for the Social Sciences (SPSS) and Analysis of Variance (ANOVA)</b>	163
Introduction	163
1. Statistical Package for the Social Sciences (SPSS)	164
1.1. How to Handle Variables and their Values in SPSS	164
1.2. Use of SPSS for Descriptive Statistics	166
1.3. Use of SPSS in Graph	166
1.4. Descriptive Statistics	167
1.5. Creating Box Plot	168
2. Analysis of Variance (ANOVA)	168
3. T-test	169
4. Variance	169
5. Mean	170
<b>Chapter 14: Ethics of Inquiry in Social Research</b>	171
Introduction	171
1. Principles of Ethics of Inquiry	172
1.1. Ethical Codes of Research	172
1.2. Voluntary Participation	172
1.3. Informed Consent	172
1.4. Debriefing	173
1.5. Privacy and Confidentiality	173
1.6. Right to Discontinue	173
1.7. Experimental Obligation	174
2. Social Responsibility of the Researcher	174
2.1. Avoidance of Harm to Respondents	174
2.2. Wasting Peoples' Time	175

2.3. Raising Expectation	175
2.4. Avoidance of Undue Intrusion	175
2.5. Avoidance of Deception	176
2.6. Respondents' Right to Data and Publication	177
2.7. Informing Respondents	177
2.8. Protecting Respondents	178
<b>Chapter 15: Qualitative Research in Theological Education</b>	181
Introduction	181
1. Ecological Psychology Method	182
2. Constructionism and Constructivism	183
3. Narratology or Narrative Analysis	185
4. Phenomenology	186
5. Heuristic Inquiry	187
6. Emic Approach in Social Research	189
7. Ethnomethodology	190
8. Grounded Theory	191
